

PLACE
TO GO!

70-Mile ATV/OHV Trail Project

This project includes the development of an extensive, first-rate ATV/OHV trail in Aitkin and Itasca Counties, Minnesota. The trail is designed to be environmentally sensitive, economically beneficial, and community supported.

The new trail segments will link existing trails in the region to provide a total of nearly **500 miles** of trails that connect the major recreation destinations - from the

Mille Lacs area, through **McGregor**
and the **Big Sandy Lake areas**,
and on to the **Grand Rapids area**.
